Phase 2 of East Camden Bypass Project

Camden — The Delaware Department of Transportation (DelDOT) announces the start of Phase 2 of the **East Camden Bypass** project beginning **Monday, July 21, 2025**, weather permitting. This phase will include significant roadway construction on Rising Sun Road and continued utility relocations as part of the ongoing infrastructure improvements in the area.

As part of Phase 2:

- Rising Sun Road will be closed from SR 10 (West Lebanon Road) to south of Sandy Hill Trail.
- Cataldi Lane will be permanently closed at Rising Sun Road. Motorists will no longer be able to access Rising Sun Road from Cataldi Lane. Instead, they should use the newly constructed section of Willow Grove Road and Cataldi Way for all future access.

This closure is necessary to allow the contractor to build the portion of the new roundabout that will connect the new Willow Grove Road to Rising Sun Road. In addition, work will include the replacement of a section of Kent County sewer infrastructure near Sandy Hill Trail.

Detour Information:

- Motorists traveling from the west should use SR 10 (West Lebanon Road) to South Old Mill Road, then make a right onto South Old Mill Road to reconnect with Rising Sun Road.
- Motorists traveling from the east should turn right onto South Old Mill Road to SR 10 (West Lebanon Road), then make a left onto SR 10.
